Summary

Java Developer with hands-on experience in building secure and scalable web applications using Spring Boot, React.js, and MySQL. Strong understanding of RESTful API development, JWT authentication, and backend architecture.

Skills

Programming: Java
Backend: Spring Boot, Spring MVC, Spring Security, REST API, JWT
Frontend: HTML, CSS, JavaScript, React.js
Database: MySQL
Tools: Git, GitHub, Postman

Projects

Employee Management System (Full Stack)

Spring Boot, MySQL, JWT, Spring Security, React

- Developed full-stack application for employee management and authentication.
- Designed RESTful APIs using Spring Boot.
- Built responsive frontend using React.js.
- Implemented JWT-based authentication and role-based access control.
